HALIFAX, N. S:

**PUBLISHED UNDER THE SANCTION OF THE EASTERN BRITISH
AMERICAN CONFERENCE.**

PREFACE.

THE Publishers of the "Provincial Wesleyan Almanack" cannot omit the opportunity (in publishing the second volume) of thanking the public for the very cordial reception given to their publication of last year. The most encouraging testimonials have been received from every quarter approving their labors,—a most gratifying proof of which was found in the rapid sale of this Annual last year—the whole edition being exhausted in two months from first date of issue.

A discerning public will perceive in every page of the present volume the evidences of thought and labor, with a laudable anxiety to secure general approbation.

The arrangement of the different departments will be found much more complete—a great deal of new matter, not hitherto found in such a publication, has been introduced. Every portion has been most carefully revised up to the date of publication. The "Halifax Business Directory" is still continued, with the latest known alterations; while nothing has been knowingly omitted which could secure this annual volume being all that is required for the Merchant, the Mariner, the Farmer, and the Family.

We trust that the size of the volume—the mechanical execution—the care visible in its varied departments to render it attractive and useful—will secure for this and succeeding numbers a very rapid and extensive sale.

P. S. Information respecting any errors or omissions in any part of the Almanack, especially in the "Halifax Business Directory," will be very thankfully received at the office of the *Provincial Wesleyan*, 135 Argyle Street, Halifax, N. S.

CHRONOLOGICAL ERAS AND CYCLES.

CHRONOLOGICAL ERAS.

The year 1860 is the 6573rd of the Julian period, and the 5620-21st of the Jewish Era.

The year 1277 of the Mohammedan Era, or the Era of the Hegira, begins on the 20th of July, 1860.

The first day of January of the year 1860 is the 2,400,411th day since the commencement of the Julian Period.

ECLIPSES.

In the year 1860 there will be **FOUR** Eclipses,—two of the Sun and two of the Moon.

I. An annular Eclipse of the Sun, Jan. 22nd, invisible in Nova Scotia.

II. A partial Eclipse of the Moon, Feb. 6th, visible at Halifax as follows:—

Moon enters Penumbra.....	7h. 48m. evening.
Moon enters Shadow.....	8 49 "
Middle of Eclipse.....	10 15 "
Moon leaves Shadow.....	11 41 "
Moon leaves Penumbra.....	12 42 "

First contact of Shadow with Moon's limb 79° from North Point towards the East.

Last contact of Shadow with Moon's Limb 32° from North Point towards the West.

Magnitude of Eclipse—0.812 (Moon's Diameter=1).

III. A total Eclipse of the Sun, July 17th. This Eclipse will be visible throughout the whole of North America. Commencing at Halifax at 8h. 35m., and ends at 11h. 25m., A. M.

IV. A partial Eclipse of the Moon, August 1st, invisible in Nova Scotia.

MORNING AND EVENING STARS.

Venus will be an Evening Star till the 10th of July, and then a Morning Star till the end of the year.

Mars will be a Morning Star the whole year.

Jupiter will be a Morning Star till July 12th, and then an Evening Star till the end of the year.

Saturn will be an Evening Star till August 6th, and then a Morning Star till the end of the year.

EMBER DAYS.

Feb. 29—March 1, 2—May 30—June 1, 2—Sept. 19, 21, 22—Decr. 19, 21, 22.

The following signs are used in our Almanack to denote the different positions and phases of the Moon. ☾ denotes the Moon in the first quadrature—that is, the quadrature between change and full. ☾ denotes the Moon in the last quadrature—that is the quadrature between full and change. ● denotes New Moon. ○ denotes Full Moon.

When viewed through a telescope, the surface of the Moon appears wonderfully diversified. Large dark spots, supposed to be excavations or valleys, are visible to the eye; some parts also appear more lucid than the general surface. These are ascertained to be mountains, by the shadows which they cast. Maps of the Moon's surface have been drawn, on which most of these valleys and mountains are delineated, and names are given to them. Some of these excavations are thought to be four miles deep and forty wide. A high ridge generally surrounds them, and often a mountain rises in the centre.

HALIFAX.

Latitude, North, $44^{\circ} 39' 20''$

Longitude, West, $63^{\circ} 36' 40''$ in time 4h. 14m. 26-7s.

NOTE.—It is to be observed that throughout the Calendar pages the Computations are in *Mean Time*, with the exception of the rising and setting of the Sun. Also that the Sun and Moon's declinations are given for the Meridian of Greenwich.

CAUSE OF THE AURORA-BOREALIS.—M. de la Lave, the celebrated French Astronomer, explains the production of the Aurora-Borealis in the following manner:—"When the sun, having passed into the Southern hemisphere, no longer heats so much of our hemisphere, the aqueous vapors which have accumulated during the summer in this part of the atmosphere begin to condense, the kind of humid cap enveloping the polar regions extends more and more, and facilitates the passage of the electricity accumulated in the upper portions of the air. But in these elevated regions, and especially at this period of the year, the aqueous vapors must frequently pass into the state of minute particles of ice or snow floating in the air, similar to those which give rise to the halos; they form, as it were, a kind of semi-transparent mist. These half-frozen fogs conduct the electricity to the surface of the earth, near the pole, and are at the same time illumined by these currents or electric discharges. In fact all observers agree in asserting that the Aurora-Borealis is constantly preceded by a mist, which rises from the pole, and the margins of which, less dense than the remainder, are colored the first; and indeed it is very frequent near the pole in the winter months, and especially in those where there is abundance of vapor in the air.

THE FAMILY FRIEND.

PERIODICALS AND NEWSPAPERS.—Every family should take a newspaper; this the lady of the house should insist upon—kindly, to be sure; for a pleasant request is as powerful as “a soft answer” in “turning away wrath.” Men, usually are willing to subscribe for a paper, though some are indifferent to this great source of family instruction as well as pleasure; but they forget when the year comes round to *renew* their subscriptions in the right way. The women of the family should be sure to remember the printer.

THE FARMER'S FRIEND.

The better animals can be fed, and the more comfortable they can be kept, the more profitable they are—and all farmers work for profit.

Cows well fed in winter give more milk in summer. An ox that is in good condition in the spring, will perform more labor, and stand the heat of summer much better than one that is poor.

What ought to be done to-day, do it.

A strong horse will work all day without food, but keep him at it and he will not last long.

A rich soil will produce good crops without manure, but keep it at it and it will tire.

Farmer's sons had better learn to hold the plow, and feed the plgs, than measure tape and count buttons.

For High Water at Cape Sable add 50m., to time of High Water at Halifax. Tide serves same hour at Annapolis and St. John, N. B.

THE FAMILY FRIEND.

TO PRESERVE FURS AND WOOLENS FROM MOTHS.—Let the former be occasionally combed while in use, and the latter be brushed and shaken. When not wanted, dry them first, let them be cool; then mix among them bitter apples from the apothecary's in small muslin bags, sew the articles in several folds of linen, carefully turned in at the edges, and keep them from damp. Or, lay among them the cuttings of Russia leather. Or, leaves from the tobacco plant are very effectual in keeping off moths. Lay them between the folds of the blanket, carpets, &c. Air furs occasionally.

THE FARMER'S FRIEND.

TO MILK COWS.—A cow should be milked *clean*. Not a drop, if it can be avoided, should be left in the udder. It has been proved that the half-pint that comes out *last* has *twelve times*, I think it is, as much butter in it as the half-pint that comes out *first*. The udder would seem to be a sort of milk pan, in which the cream is uppermost, and, of course, comes out last, seeing that the outlet is at the bottom. But, besides this, if you do not milk clean, the cow will give less and less milk, and will become dry much sooner than she ought.—*Cobbett*.

RAISING POULTRY.—There is scarcely any branch of farming operations more productive than the raising of poultry for market; and yet with a large majority of our agriculturalists, it is considered of but little account. The proximity to a great market, and the facilities for reaching it possessed by many of our farmers in this country, should make the rearing of poultry an object of attention.

HOW TO PRESERVE MANURE.—Put it in heaps, and cover it with earth two feet deep. Never leave manure in the barn yard; put it all, yearly, on your land.

For High Water at Cape Sable add 50m. to time of High Water at Halifax. Tide serves same hour at Annapolis and St. John, N. B.

THE FAMILY FRIEND.

TOMATO CATSUP.—To one gallon of skinned Tomatoes add four table-spoonfuls of salt; four table-spoonfuls of black pepper, ground fine; half a table-spoonful of allspice, ground fine; three table-spoonfuls of mustard; eight pods of red pepper. Simmer it slowly in sharp vinegar, in a pewter vessel, three or four hours; then strain it through a wire-sieve, and bottle it up. When cold, seal up the corks, and it will last for years.

THE FARMER'S FRIEND.

SWEEDISH MODE OF RAISING TURKEYS.—As soon as the young turkeys leave the shell, they are made to swallow one or two pepper corns, and returned to their mother. They are afterwards fed with crumbs of bread and milk, and with common dock-leaves, chopped small, and mixed with fresh butter-milk, and kept in a warm place or sunshine, and guarded from the rain or from running among nettles.

Nothing, however, is more useful for them than the common garden pepper-cress, or cut leaved cress. They are very fond of it; and, supplied with as much of it as they will eat, they will not be delicate in their other food.

TO FATTEN DUCKS.—Feed them with the same food as the turkeys or geese, and let them have a pan of water to dabble in.

 For High Water at Cape Sable, add 50m. to time of High Water at Halifax. Tide serves same hour at Annapolis and St. John, N. B.

THE FAMILY FRIEND.

CURING HAMS—THE NEWBOLD RECEIPT.—Take seven pounds coarse salt, five pounds brown sugar, two ounces pearl ash, four gallons of water. Boil all together, and scum the pickle well when cold. Put it on the meat. Hams remain in it eight weeks—beef three weeks. The above is for one hundred and ninety pounds weight.

TO MAKE APPLE MOLASSES.—Take new sweet cider just from the press, made from sweet apples, and boil it down as thick as West India molasses. It should be boiled in brass, and not burned, as that would injure the flavor. It will keep in the cellar, and for many purposes is said to be better than W. I. molasses.

THE FARMER'S FRIEND.

MANURE FOR CLOVER.—Some farmers make it a rule to spread about fifty bushels per acre of ashes over their clover in March, which they find, from long experience to be a good manure for this grass. Wood-ashes will be useful on any soil; coal-ashes chiefly on stiff clays. On the stiff soils of some parts of Buckinghamshire, ashes of all kinds are much esteemed, and have risen to a high price.

IMPORTANT FACT IN AGRICULTURE.—Whatever may be the nature of the soil, or of the crop cultivated, it should always be the aim of the farmer to grow full crops. Partial and somewhat extensive failures will even then but too often occur; but to neglect making the best known preparations, or only to prepare for half a crop, has a direct tendency to unprofitable farming.

HOW TO PRESERVE MANURE.—Put it in heaps, and cover it over with earth two feet deep. Never leave manure in the barn yard; put it all, year by year, on your land.

 For High Water at Cape Sable add 50m. to time of High Water at Halifax. Tide serves same hour at Annapolis and St. John, N. B.

THE FAMILY FRIEND.

TO SMOKE HAMS AND FISH ON A SMALL SCALE.—Drive the ends out of an old hogshend or barrel; place this over a heap of sawdust of green hard wood, in which a bar of red hot iron is buried; or take corn-cobs, which make the best smoke; place them in a clean iron kettle, the bottom of which is covered with burning coals; hang the hams, tongues, fish, &c., on sticks across the casks, and cover it, but not closely, that the cobs or sawdust may smolder slowly, but not burn.

HOW THE CHINESE MAKE TEA.—The art of making tea consists in pouring the water on and off immediately, so as to get the flavor.

THE FARMER'S FRIEND.

FERTILIZING STEEPS FOR TURNIPS, WHEAT, OR BARLEY.—Steep turnip seed twelve hours in train oil, which strain through a fine sieve, and immediately thoroughly mix the quantity of seed you wish to sow on an acre, with three bushels of dry loamy earth, finely sifted, which drill (or sow) as soon as possible; and when the plants begin to appear throw a small quantity of soot over them.

TO KEEP COWS FROM CORN.—Take a quart of train oil, and as much turpentine and bruised gunpowder; boil them together, and when hot, dip pieces of rags in the mixture, and fix them on sticks in the field. About four are sufficient for an acre of corn.

USE OF THE DANDELION.—This is an excellent salad, and a good green. Where it grows as a weed, cover it early in the spring with rotten tan or decayed leaves; it will soon come up.

For High Water at Cape Sable add 50m. to time of High Water at Halifax. Tide serves same hour at Annapolis and St. John, N. B.

THE FAMILY FRIEND.

TO MAKE FINE PANCAKES, FRIED WITHOUT BUTTER OR LARD.—Take a pint of cream and six new-laid eggs; beat them well together; put in a quarter of a pound of sugar and one nutmeg or a little mace—which you please, and so much as will thicken—almost as much as ordinary pancake flour batter; your pan must be heated reasonably hot, and wiped with a clean cloth; this done spread your batter thin over it and fry.

ROCK CAKES.—Mix together one pound of flour; half a pound of sugar; half a pound of butter; half a pound of currants or cherries, and four eggs, leaving out the whites of two; a little wine and candied lemon-peel are a great improvement.

THE FARMER'S FRIEND.

EASY MODE OF DESTROYING MITES AND WEEVILS IN GRANARIES.—A very sagacious farmer has succeeded in destroying weevils by a very easy process. In the month of June, when the granaries are empty, he collected great quantities of the largest sized ants, and scattered them about the places infested with the weevils. The ants immediately fell upon and devoured every one of them; nor have any weevils since that time been seen on his premises.

Remark.—The large, or wood-ant, feeds entirely on animal substances; of course it would not destroy the corn.

PREPARATION FOR CARROT AND OTHER WINGED SEEDS.—Take two bushels of dry loamy earth, finely sifted; to which add one bushel of bran, and a sufficient quantity of carrot seed, cleaned from stalks, and well rubbed between the hands; all which thoroughly mix together, and drill (or sow). The carrot seed will stick to the bran, which, with the earth, will be regularly discharged.

 For High Water at Cape Sable add 50m. to time of High Water at Halifax. Tide serves same hour at Annapolis, and St. John, N. B.

THE FAMILY FRIEND.

RASPBERRY CAKES.—Take any quantity of fruit you please, weigh and boil it, and when mashed, and the liquor is washed, add as much sugar as was equal in weight to the raw fruit. Mix it very well *off* the fire till the whole is dissolved, then lay it on plates, and dry it in the sun. When the top part dries, cut it off into small cakes, and turn them on a fresh plate. When dry put the whole in boxes with layers of paper.

TO DETECT SUGAR OF LEAD IN WINES.—The tincture of orpiment converts wine so adulterated to a black color.

THE FARMER'S FRIEND.

TO PREVENT THE FLY IN TURNIPS.—From experiments lately made it has been ascertained that lime sown by hand, or distributed by a machine, is an infallible protection to turnips against this destructive insect. It should be applied as soon as the turnips come up, and in the same daily rotation in which they are sown. The lime should be slacked immediately before it is used.

TO KEEP PONDS AND ARTIFICIAL PIECES OF WATER FREE FROM WEEDS.—At the Marquis of Exeter's seat, near Burghley, there is an artificial piece of water, about a mile in length, which used to be so over-run with weeds that three men were employed constantly, for six months in every year, to keep them under; in which they never succeeded. About seven years ago, two pairs of swans were put on the water: they completely cleared away all the weeds the first year, and none have appeared since, as the swans constantly eat them before they rise to the surface.

For High Water at Cape Sable, add 50m. to time of High Water at Halifax. Tide serves same hour at Annapolis and St. John, N. B.

THE FAMILY FRIEND.

TO KEEP POTATOES.—The cellar is the best place for them, because they are injured by wilting; but sprout them carefully if you want to keep them. They never sprout but three times; therefore, after you have sprouted them three times, they will trouble you no more.

Note.—Boiled potatoes are said to cleanse the hands as well as common soap; they prevent *chaps* in the winter season, and keep the skin soft and healthy.

CELERY.—Celery should be kept in the cellar, the roots covered with tan to keep them moist.

THE FARMER'S FRIEND.

A NEW AND PROFITABLE MODE OF FATTENING PIGS.—Put four pigs in a sty, for they feed best in company; but if there are too many they are apt to quarrel: feed them moderately the first week; and thrice during the second week, mix with their barley meal as much antimony as will lie on a shilling; and the third week twice give them the same quantity. I need scarcely observe it is in powder This purifies the blood, gives them an appetite, and makes them thrive apace.

STRIPED GRASS RECOMMENDED FOR HAY.—The Indian striped or riband grass which is cultivated in gardens, would admirably answer for hay. In rich grounds plants are frequently four feet high; what a burden of hay would a field so cropped produce! Cattle are exceedingly fond of it; the seeds are easily saved, so that a person might soon have enough for a rood, and from that save again and again, for as many acres as he might chose. It is probable that the crop might be much too large to be made on the field where it grew, and require another for making.

 For High Water at Cape Sable, add 50m. to the time of High Water at Halifax. Tide serves same hour at Annapolis and St. John, N. B.

THE FAMILY FRIEND.

KEEPING APPLES.—Apples should be placed on a dry floor three weeks before they are packed away in barrels. They should be kept in a cool place; if inclosed in a water-tight cask, they may be kept all winter in a loft or garret without further care, and will come out sound and fresh in the spring.

TO KEEP LETTUCE.—If the tops of lettuce be cut off when it is becoming too old for use, it will grow up again fresh and tender, and may thus be kept good through the summer.

SUBSTITUTE FOR CREAM.—If you have not cream for coffee, it is a very great improvement to boil your milk, and use it while hot.

THE FARMER'S FRIEND.

TO IMPROVE THE WOOL OF SHEEP BY SHEARING.—Immediately after the sheep are shorn soak the roots of the wool that remain all over with oil, or butter and brimstone; and three or four days afterwards wash them with salt and water. The wool of the next season will not only be much finer, but the quantity will be in much greater abundance. It may be depended upon that the sheep will not be troubled with scab or vermin that year. Salt water is a safe and effectual remedy against maggots.

TO PRESERVE CATTLE FROM DISEASE IN THE WINTER.—When cattle are kept out in the winter it is recommended as a useful practice to rub some tar at the root of the horn, which prevents the wet from getting between the root and the skin, and, it is said, contributes to preserve the health of the animal and to keep it from the various diseases to which it may otherwise be liable.

For High Water at Cape Sable add 50m. to time of High Water at Halifax. Tide serves same hour at Annapolis and St. John, N. B.

THE FAMILY FRIEND.

METHOD OF CURING BAD TUB BUTTER—A quantity of tub butter was brought to market in the West Indies, which, on opening, was found to be very bad, and almost stinking. A native of Pennsylvania undertook to cure it, which he did thus:

He started the tubs of butter in a large quantity of hot water, which soon melted the butter; he then skimmed it off as clean as possible, and worked it over again in a churn, and with the addition of salt and fine sugar, the butter was sweet and good.

TO TEST MUSHROOMS—Rub the upper skin with a gold ring or any piece of gold; the part rubbed will turn yellow if it is a *poisonous fungus*.

THE FARMER'S FRIEND.

TO PRESERVE OATS FROM BEING MUSTY.—Richard Fernor, Esquire, of Tusmore, has in his stable a contrivance to let oats down from a loft out of a vessel, like the hopper of a mill, whence they fall into a square pipe, let into the wall, about four inches diagonal, which comes into a cupboard set into a wall, but with its end so near the bottom that there shall never be above a desirable quantity in the cupboard at a time, which being taken away, another parcel succeeds; by this motion the oats are kept constantly sweet (the taking away one gallon moving the whole above), which, when laid up otherwise in great quantities, frequently grow musty.

CAUSE AND PREVENTION OF DRY ROT.—The cause of the dry rot in wood is moisture; and to prevent well-dried timber from decaying above or under ground, is done by charring it well.

For High Water at Cape Sable add 50m. to time of High Water at Halifax. Tide serves same hour at Annapolis and St. John, N. B.

THE FAMILY FRIEND.]

TO MAKE SOFT SOAP.—Bore some holes in your lye-barrel; put some straw in the bottom; lay some unslacked lime on it, and fill your barrel with good hard wood ashes; wet it and press it down as you put it in. When full, make a basin in the ashes, and pour in water; keep filling it as it sinks in the ashes. In the course of a few hours the lye will begin to run. When you have a sufficient quantity to begin with, put your grease in a large iron pot, let it heat, pour in the lye, let it boil, &c. Three pounds of clean grease are allowed for two gallons of soap.

THE FARMER'S FRIEND.

EXPERIENCED MODE OF HEALING WOUNDS IN TREES.—This method consists in making a varnish of common linseed oil, rendered very dry by boiling it for the space of an hour, with an ounce of litharge to each pound of oil, mixed with calcined bones, pulverized and sifted, to the consistence of an almost liquid paste. With this paste the wounds of trees are to be covered, by means of a brush, after the bark and other substance have been pared, so as to render the whole as smooth and even as possible. The varnish must be applied in dry weather, in order that it may attach itself properly.

TO PRUNE WALL FRUIT.—Cut of all fresh shoots, however fair they may appear to the eye, that will not, without much bending, be well placed to the wall; for if any branch happens to be twisted or bruised in the bending or turning (which you may not easily perceive,) although it may grow and prosper for the present, yet it will decay in time, and the sap or gum will issue from that place.

For High Water at Cape Sable, add 50m. to the time of High Water at Halifax. Tide serves same hour at Annapolis and St. John, N. B.

THE FAMILY FRIEND.

To KEEP FRUIT.—To preserve fruits, you must keep them in a room rather above the ground floor; sheltered alike, from the sun and the damp; it is even prudent, in order to avoid opening the windows, to let out the humid exhalations of the fruit, to have a stove in the room, and light a fire in it now and then. The decayed fruit should be carefully removed. Cherries, grapes, &c., are kept sound by hanging them to threads, and then inclosing them in new boxes or barrels; these are closed as tight as possible, and deposited in a dry place. Some preserve them by laying them in sawdust or bran.

THE FARMER'S FRIEND.

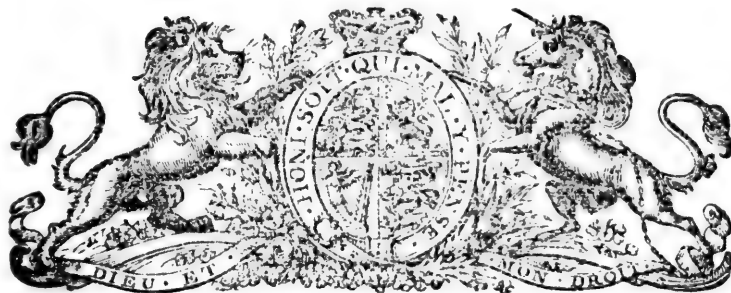

TO PRUNE VINES TO ADVANTAGE.—In pruning vines leave some new branches every year, and take away (if too many) some of the old, which will be of great advantage to the tree, and must increase the quantity of fruit.

When you trim your vine, leave two knots, and cut them off the next time; for usually two buds yield a bunch of grapes. Vines, thus pruned, have been known to bear abundantly, whereas others that have been cut close to please the eye

HOW TO PROMOTE THE HEALTH OF FARM ANIMALS.—All domestic animals should be abundantly furnished with salt. A supply kept within their reach, whenever it can be done, is recommended. Horses and pigs should occasionally have ashes given them in their food; and pigs ought at all times, when confined in pens, to be supplied with charcoal, as, besides being a medicine, it is a cheap and valuable food.

 For High Water at Cape Sable, add 50m. to time of High Water at Halifax. Tide serves same hour at Annapolis and St. John, N. B.

Letter Carriers, Wm. Craig, George Craig, David Silverthorne, and John Patterson.

Office open every day (except Sunday) from 4 o'clock in the morning till 8 in the evening.

The Mails for the United Kingdom are closed at Halifax every alternate *Thursday* evening at 8 o'clock. Letters, &c., for England, which may be dropped into the box after the hour of closing, and up to the

arrival of the Packet will be forwarded in a bag, loose—but such letters must be prepaid by stamps. The Royal Mail Steamers leave Boston for Halifax and Liverpool, G. B., every alternate *Wednesday*, arrive at Halifax on *Thursday* evening or very early the succeeding morning, leaving Halifax immediately after receiving the mails.

Letters to and from England, $7\frac{1}{2}$ d., *prepayment compulsory*, can be prepaid by using a 6d., or two 3d., Stamps, together with half of a three penny Stamp cut diagonally. Newspapers free.

The postage on books from Great Britain to Nova Scotia, or vice versa, is for a packet not exceeding 4 oz. 4d., currency; not exceeding $\frac{1}{2}$ lb. $7\frac{1}{2}$ d.; $\frac{1}{2}$ lb. and not exceeding 1 lb., 1s. 3d.; and so on adding 1s. 3d. for every additional pound or fraction of a pound. One book package may contain separate Books, Publications, Almanacks, and Maps and Paper, Parchment or Vellum; the latter three materials may be written or printed on—the package may contain the name and address of the sender. Rollers may accompany prints and maps, and markers may be sent with books. No letters must be sent with or written on a book package, and no such package must exceed two feet in length, width or depth. The postage must in all cases be prepaid by Stamps.

Closed Mails for the United Kingdom *via* United States are made up at Halifax to meet the Steamers leaving New York for Liverpool. Letters to be specially addressed "*via New York*." Letters 10d.; newspapers 1d. each, must be prepaid.

The Mails for the United States, *via* Boston, per Royal Mail Steamers, are made up on *Tuesday* evening of the week in which the Packet from England is due, at 8 o'clock. Should the Steamer not arrive by 6 o'clock the following morning, *supplementary Mails* will be made up. Should the Steamer from Liverpool arrive previous to *Tuesday* night—the Mails as heretofore will be closed *immediately on her arrival*.

A closed mail for Canada is made up and forwarded at the same time in charge of the British Officer. Letters so forwarded must be specially addressed "Closed Mail for Canada," postage $7\frac{1}{2}$ d.; viz. 5d. packet rate, and $2\frac{1}{2}$ d. Colonial rate—prepayment optional.

The Mails for Bermuda and the West Indies are made up finally at Halifax on the *Thursday* evening of the week in which the Royal Mail Steamer is expected to arrive from Boston, at 8 o'clock. Letters 5d.—when posted in the interior, 3d. additional, which must be prepaid. Newspapers 1d. each, which must be paid by Stamp.

Letters are forwarded *via* Bermuda for Chagres and the Pacific, Chili, and Peru, Havana, Honduras, Laguyra, Mexico, Venezuela, and the British and Foreign West India Islands. Postage to Foreign West Indies, 5d. when posted at Halifax; 3d. additional when posted in the interior—must be prepaid. Newspapers 1d. each, to be prepaid by stamp at the time of posting.

The Mails for Newfoundland (and Cape Breton during the Summer months) are made up at Halifax once a month during the months of December, January, February, and March; and once a fortnight during the months of April, May, June, July, August, September, October, and November, closing finally on the *Thursday* evening of the week in which the R. M. Steamer is expected to arrive from Boston. Postage 5d.; when posted in the interior 3d. additional. Newspapers 1d. each, which must be paid by stamp at the time of posting.

The Mails for St. Pierre and Miquelon are forwarded to Sydney, C. B., from whence they are despatched by the French packet during the

Summer months.
Letters 5d. packet

All letters must be prepaid on a letter must be paid throughout the year 6d.; to Oregon 10d.

Letters posted from the same town and

For Ketchikan, Return mail due

Letters closing of the month as well as the rest of the year

Letters prepaid the night, and despatched same

When the mail is received the same evening—if after 7 o'clock the following

The Postmaster's package, unless Land mails must

1. Orders may be sent by Currency, but shall be Six Pence for the Order

2. The charge shall be Six Pence for the Order

Summer months, and from Halifax direct in the Winter months. Letters 5d. packet rate, and 3d. inland—prepayment optional.

All letters are charged by weight, and a uniform rate of postage of 3d. on a letter not exceeding half an ounce in weight has been established throughout British North America. To any part of the United States 6d.; to Oregon and California 9d.—prepayment optional.

Letters posted in any town within the Province for delivery in the same town are liable to the rate of one penny for every half ounce.

Newspapers pass free to any part of the Province, British North America, (Newfoundland and Bermuda excepted) and the United States when sent by land mail—to be put up in covers open at the ends.

Printed Circulars, Prices Current, Handbills, and other printed matter of like description, put up in covers open at the ends, and without any written communication, may be sent to any part of the Province to any place within the same, as well as through Nova Scotia, at the rate of 1d. per ounce—prepayment optional, except when addressed to the United States, in which case the postage must be prepaid.

Pamphlets, Magazines, Periodicals, or Books, bound or unbound, done up in covers open at the ends, unaccompanied by any written communication, may be transmitted as above mentioned, through the mail, in this Province: not exceeding 2 ounces in weight free; and when exceeding 2 ounces $\frac{1}{2}$ d. for every ounce up to 48 ounces, beyond which weight they cannot be sent by mail.

British reprints of copyright works from the United States, by *land mail* or *steamer*, charged letter postage.

For Dartmouth *daily*, postage one penny.

For Musquodoboit Harbor, every Tuesday morning, at 9 o'clock.—Return mail due on Monday afternoon, at 5 o'clock.

For Prospect on Saturday afternoon, at 2 o'clock. Return mail due on Saturday morning at 11 o'clock.

For Ketch Harbor and Sambro on Friday evening, at 10 o'clock. Return mail due on Saturday.

✂ Letters for *Registry*, must be posted half an hour previous to the closing of the mail by which they are to be forwarded, and the postage as well as the registration fee, must be *prepaid*.

Letters *prepaid by Stamps*, and dropped into the Letter Box during the night, and up to 5 o'clock, a. m., will be forwarded by the mails despatched same morning.

When the mails from England arrive before 9, p. m., they are delivered the same evening, and after that hour, at 7 next morning.

All other mails arriving before 7, p. m., will be delivered the same evening—if after that hour and before 8, at 6 o'clock—and if after 8, at 7 o'clock the following morning.

The Postmaster General is not liable for the loss of any letter or package, unless such loss should arise from his own default.

Land mails made up at Halifax, 8, p. m.

MONEY ORDER SYSTEM.

1. Orders may be issued for any sum under and up to Five Pounds, Currency, but shall not exceed that amount.

2. The charge for each Order (without respect to the amount thereof) shall be Six Pence Currency, to be paid in advance by the party applying for the Order.

3. The Money Orders shall be made out upon forms supplied by the Head Office, *and no order will be valid or payable unless given upon the regular printed form.*

4. Persons applying for Money Orders will be required to state the particulars upon a Form of Application provided for that purpose.

5. If, in consequence of error or misapprehension, the purchaser of a Money Order should desire to change the place of payment named therein, the issuing Postmaster will write across the face of the Order, *in black ink*, the words "*Now payable at ———*," specifying the place,—to which he will affix the date of his signature. The charge for transfer, as it will involve some correspondence, will be Six Pence in each case.

6. No alteration of the Payee's name will be allowed after an Order has been issued and the advice mailed, but a new one will be granted, and the usual charge of Six Pence made.

7. Parties procuring Money Orders will please to examine them carefully, to see that they are properly filled up and stamped. This caution will appear sufficiently important when it is understood that an Order defective in any important respect will throw difficulties in the way of its payment.

8. When a Money Order is presented for payment at the Office on which it is drawn, the Postmaster, or Clerk employed, will use all proper means to assure himself that the Applicant is the party named and intended in the Advice, and *upon the payment of the Order will be careful to obtain the signature of the Payee* to the receipt at foot.

9. When through illness, or other insuperable difficulty, the Payee—that is the person named in the advice—is prevented from presenting the Order in person, the Postmaster will be at liberty to accept a *written authority* from him in favor of a second person, provided always that such written authority is satisfactorily proved to be genuine.

10. Any Money Order Post Office may repay an Order issued by itself, but only to the party who obtained it. The charge or commission shall in no case be returned.

11. For the present, the Offices in this Province which are authorized to grant and pay Money Orders are as follows, viz: General Post Office, Halifax; Post Offices at Amherst, Antigonish, Annapolis, Arichat, Baudouin, C. B., Digby, Guysboro', Kentville, Lunenburg, Liverpool, Pictou, Port Hood, Shelburne, Sydney, Truro, Windsor, and Yarmouth.

12. Postmasters, when not in funds, may defer payment of money for six days until they shall have received a supply from the Head Office.

PARCEL POST.

Parcels closed at the ends and sides may be posted at any Post Office in Nova Scotia, for conveyance to any other Post Office (not Way Office) in the Province, at a rate of Postage subject to the following condition:

1. No letter or letters shall be enclosed.
2. The parcel shall not contain any explosive substance, glass, liquids, or other matter likely to injure the ordinary contents of the mail, under penalty of the forfeiture of the parcel.
3. The weight of the parcel shall not exceed 3lbs., nor the size exceed one foot in length or breadth, or six inches in thickness.
4. Parcels must be prepaid at the following rates, and by *postage stamps* (not by money):

[1860.]

If weighing less than 1 lb. 1s. 3d.

More than 1 lb., and not exceeding 2 lbs. 2s. 6d.

More than 2 lbs., and not exceeding 3 lbs. 3s. 9d.

5. The parcel may be registered, on prepayment, also by stamp, of a registration fee of 6d. in addition to the above rate.

6. The parcel shall have the words "*By Parcel Post*," plainly written over the address. It should be well and strongly put up, and be legibly addressed to the Post Office address of the intended receiver, including the name of the County in which the Post Office is situated. The following is an example of the mode of address recommended:

By Parcel Post.

To _____,
_____ Post Office,
County of _____, N. S.

Sent by _____,
_____ County.

7. If the name and address of the sender be written on the parcel, it will, if delivery should fail from any cause, be returned unopened to the sender on payment of an additional rate of 1s. 3d. for the return conveyance.

8. If the number of stamps affixed to a packet be insufficient to prepay the proper rate, the amount deficient will be rated unpaid, with a fine of 6d. in addition.

---	---	--	---

Separate Mails are not made up at the Post Office in Halifax for any of the Way Offices except those lying between the City and the nearest Post Office.

Letters for the Way Offices are forwarded to and received from the Post Offices to which they are subordinate, on the days above named.

PACKETS FROM HALIFAX.

The Steamer for England arrives from the United States at Cunard's wharf fortnightly, that is about midnight every other Thursday, and the same week the Steamer from England arrives and proceeds to Boston.

Messrs. Cunard & Co. have also Steam Packets running to Bermuda and St. John's, N. F.,—the latter touches at Sydney.

The Steamer *Eastern State* leaves Brown's wharf every other Tuesday for Boston, and touches at Yarmouth on the way. Messrs. Young & Hart have two packets running continually to Boston, viz: the barque *Halifax*, and the brig *Boston*; the latter is commanded by Capt. O'Brien, and the former by Capt. McCullough.

A packet runs between Halifax and Liverpool, Queen's Co., leaving Cronan's Wharf occasionally through the month.

Two fine schooners—the *Sylvia* and the *Lunenburg Packet*—sail about every ten days for Lunenburg,—the former from Black's, and the latter from Oxley's wharf.

The Guysborough Packet sails from the Long Wharf.

The Sydney (sailing) Packet generally starts from Aldwell's Wharf.

TARIFF OF DUTIES IN THE PROVINCE OF NOVA SCOTIA.

An act to regulate Custom Duties. Passed the 30th day of March, 1859.

(Published by Authority.)

Be it enacted by the Governor, Council, and Assembly, as follows:—

1. This act shall come into operation on the first day of April, in the year one thousand eight hundred and fifty nine, and shall continue in force until the first day of April next thereafter.

2. There shall be collected and paid to her Majesty for the use of the province upon all goods brought into this province, by sea or land carriage, the several duties, in currency, set forth in figures on the table hereinafter contained, denominated "Table of Duties," opposite the respective articles in such tables mentioned, according to the value, number, or quantity of every such article.

3. The goods mentioned in the table hereinafter contained, denominated "Table of Exemptions," shall be free of duty.

4. The duties shall be collected, paid, and received, and the proceeds thereof applied under the provisions of the provincial statutes from time to time in force concerning the same.

5. The weights and duties, such or number less value,

6. The duties and receive notes at the rate of tender

7. Duties

account of the and shall be from time to shall in all cases Governor.

8. The Governor do, declare by manufacture of Brunswick, P. may be imported manner and un

5. The duties shall be collected, paid, and received according to the weights and measures in use in this province, and where, in the table of duties, such duties are imposed according to any specific value, quantity or number, the same shall apply in like proportion to any greater or less value, quantity, or number.

6. The duties shall be paid to the collectors of the colonial revenue, and received at the office of the Receiver General, either in treasury notes at the value of twenty shillings each, or in current coin at the legal rate of tender.

7. Duties paid into the Receiver General's office shall be carried to account of the provincial revenue, and become part of the public funds, and shall be paid and applied only to such purposes as may be expressed from time to time in the provincial statutes concerning the same, and shall in all cases be drawn only by warrant under the hand and seal of the Governor.

8. The Governor in Council may, whenever it shall be advisable so to do, declare by proclamation what articles, the growth, production, and manufacture of the British North American Provinces of Canada, New Brunswick, Prince Edward Island, and Newfoundland, or any of them, may be imported into the province free of duty, and may declare in what manner and under what restrictions the same may be so imported.

9. Nothing herein contained shall operate to impose duties on articles exempted from duty under the act for giving effect on the part of the province of Nova Scotia to a certain treaty between her Majesty and the United States of America, passed in the year 1854.

bor, and exhibits a *red light* on the seaward sides, to distinguish it from Sambro and Meagher's Beach lights; stands forty-five feet above high water mark; rise and fall six feet. The Tower painted dark brown, with a white belt between the Balcony and Lantern, to distinguish it in the day time.

CROSS ISLAND—Entrance to Lunenburg harbor. *Two lights—flash light above; fixed light below.*

LIVERPOOL—South end of Coffin's Island. *A plain revolving light.*

FORT POINT harbor light, at the head of Liverpool harbor, southern entrance of the river. *A bright fixed light*, visible from all points of approach, and must be left on the larboard hand when entering the harbor.

PORT MEDWAY—Beacon Light on Admiralty Head, west side of the entrance of the port. Building square, painted *white* with *black square* in the centre of seaward sides, *plain white light*, forty feet above sea level, and stands within thirty fathoms of the shore.

SHELburne—McNutt's Island. *Two fixed lights—one above the other.*

BARRINGTON—Baccaro Point, east side of the entrance to Barrington Bay. *A flash light* of fifteen seconds.

YARMOUTH—West Side of the harbor. *A plain, revolving light.*

CAPE SABLE, SEAL ISLAND—The first light on approaching the Bay of Fundy is on the South Point of Seal Island. *A plain, white light*, elevated about eighty feet above high water mark, and may be seen, on approaching the Island, from any point of the compass. A very dangerous rock, under water, but upon which the sea always breaks, called Blonde rock, about three and one-third miles S. by W. by compass, from the Light House. Between this rock and the Island there are some dangers—the ground is rocky throughout, and large vessels, therefore, ought not to attempt passing between them.

BRIAR ISLAND—*A plain, white light*, situate about half a mile N. E. from the N. W. point of the Island.

WESTPORT—Peter's Island, at the south entrance of the east side of the Bay of Fundy. *Two white lights*, placed horizontally, to distinguish it from Briar Island light, at an elevation of forty feet above high water mark.

DIGBY GUT LIGHT—On the west side of Digby Gut, from Briar Island north-eastward. This light is chiefly intended as a guide into Digby Basin. *A fixed, white light.*

BLACK ROCK LIGHT—On the southern shore of the Bay of Fundy. *A fixed, white light.*

HORTON BLUFF LIGHT—In the Basin of Minas, ninety-five feet above sea level, high-water; rise and fall forty to forty-five feet. Building square, painted white; stands sixty feet from the Bluff, and shows a *white light*, which may be seen in clear weather, over the greatest part of the Basin of Minas, (after passing Cape Blomedon,) and above the Five Islands, and up Windsor River, until intercepted by the continuation of the Bluff to the southward of it.

APPLE RIVER LIGHT—North side of the entrance to Apple River, in Chignecto, or Cumberland Bay. *Two fixed lights*, placed horizontally.

PARTRIDGE ISLAND RIVER—An Octagonal light beacon, on the west side of the entrance to Partridge Island River, Parrsborough, on the north side of the Basin of Minas, and exhibits a *plain, white light*, at an elevation of thirty feet above high water; rise and fall about forty-five

feet; the Tower is white, and stands close to high water mark on the beach. Vessels can only enter the harbor at high water, and must lie aground on the soft bottom when the tide is low.

EASTERN BEAVER, OR WILLIAM'S ISLAND.—*A revolving light.*

CANSEAU, CRANBERRY ISLAND.—*Two fixed lights*, one above the other.

WEST SIDE OF THE GUT OF CANSEAU.—*A fixed light.*

EDDY, OR SAND POINT LIGHT.—On Eddy, or Sand Point, on the west side of the south entrance to the Strait of Canseau, distinguished by *two white lights*, placed horizontally, twenty five feet above the sea level. Building square, painted *white*, with a *black diamond* on the seaward side.

GUYSBOROUGH HARBOR BEACON.—On the west side of the entrance to the harbor, head of Chedabucto Bay. *A fixed light.*

PICTOU LIGHT.—On the south-east side of the entrance to the light. *A fixed light.*

PICTOU ISLAND LIGHT.—On the S. E. point of the Island. Building square, and painted *white*. *A fixed light*, fifty-two feet above high-water mark.

ARICHAT BEACON.—A Light on Point Morichi, on the south-east side of the southern entrance to the harbor. Building square, painted *white*, *A white light*, thirty-four feet above the sea-level.

LOUISBURG.—On east side of the entrance to the harbor. *A fixed light.*

LOW POINT LIGHT.—East side of Sydney, C.B., harbor. *A fixed light.*

SEA-WOLF, OR MARGARIE ISLAND LIGHT.—Situate on the N. W. side of the Island of Cape Breton, nearly midway between Port Hood and Cheticamp harbors, and distant from Cape Breton, two and a-half miles. *A plain, white light.* The lantern is placed on a square wooden tower, painted *white*, near the centre and summit of the Island. The lantern is 298 feet above sea level—visible from all points of approach. To vessels in proximity to the Island the light may become obscured by the abrupt cliffs or sides of the Island, which may serve as a guide to tack or anchor by, as hundreds of vessels find anchorage on the south east side. The chief landing is near the south-west end, in shore, where a few fishing stages and boats are kept in use during the fishing season.

PORT HOOD LIGHT.—Changed from *white* to *red*, when seen from the northern entrance, to distinguish it from the Margaree and North Canso Lights.

WHITE HEAD ISLAND LIGHT.—On the S. W. point of White Head Island. The tower is square, painted *white*, stands seventy-five fathoms from the water's edge, with an Octagonal Iron Lantern, sixty feet above sea level at high water; rise and fall six feet. The light is distinguished by *bright flashes* of ten seconds duration, followed by eclipses of ten seconds, displaying alternately three flashes and three eclipses in a minute. The light will not be totally obscured during the eclipse.

FLINT ISLAND LIGHT.—On Flint Island, on the eastern coast of Cape Breton. Lat. $40^{\circ} 11' 5''$ N., and Long. $59^{\circ} 45' 20''$ W., and exhibits a *bright, flash light*, every fifteen seconds, visible from all points of the compass. The light is sixty-five feet above sea level, and can be seen at the distance of twelve miles.

ST. PAUL'S ISLAND.—*A fixed light* on the north-east end, and a *flash light* on the south-west end.

SCATTARIE ISLAND.—*A revolving light* at the east end of the Island.

IRON-BOUND ISLAND LIGHT.—Off the entrance to LaHave River. A *bright, flash light*, of ten seconds duration, followed by eclipses of thirty seconds. The lantern is placed on a square, wooden tower, painted *white*, on the southern side of the Island, and is visible from all points of approach. Elevation seventy-five feet above sea-level.

RAGGED ISLAND HARBOR LIGHT.—On Gull Rock, off the entrance of the harbor. Building square, and painted *white*, exhibiting a *clear, fixed light*, at an elevation of fifty-one feet above the sea-level, and is situated in Lat. $43^{\circ} 39' N.$ and Long. $64^{\circ} 66' W.$

PUBNICO HARBOR LIGHT.—A Beacon Light on the S. E. side of the entrance to Pubnico Harbor, situate on the E. side of the entrance to the Bay of Fundy, about thirteen miles northerly of Cape Sable. Building square, painted *white*. A *fixed, red light*, on the seaward side, twenty-eight feet above high water level, (rise and fall twelve feet,) and stands fifteen fathoms from low-water mark. The point of beach is bold.

A FOG BELL has been erected on the E. Cipe of Yarmouth harbor, a few feet to the southward of the Light House, and about one and a quarter miles from the extreme outer point of the Cape. Strikes *seven* times per minute.

GANNET ROCK LIGHT.—This light is intended to warn vessels of their approach to a very dangerous range of shoals and ledges, which extend from the Old Proprietor to the Seal Islands, off Machias, a distance of about twenty miles. A *white, flash light*, twenty seconds dark, and forty seconds light, in each minute. Building painted in stripes, *vertical, black and white*. Between the northernmost and southernmost of the Murr Ledges, there is a range of dangerous rocks and shoals, many of them almost above water, and extend eastward from the Light House about four miles. From this range further westerly, about six miles from the Gannet Light, lies a dangerous breaker called the Bull—this may be avoided by keeping three remarkable headlands near the S. W. end of Grand Manan, open.

MACHIAS SEAL ISLAND LIGHT.—Two *fixed, white lights*, upon the Machias Seal Islands, forty-five feet above high water, and bearing from each other E. S. E. and W. N. W., distant about 200 feet, by which circumstance, of two Light Houses at the same station, they will be immediately distinguished from all other lights upon the coast, British or American. Both buildings painted *white*. Vessels standing to the northward between these lights and the Gannet Rock, should tack or haul off the moment they bring these lights into one, as they will be, then, not more than three-fourths of a mile from the Murr Ledges, if more than five miles to the east of the lights.

HEAD HARBOR LIGHT.—Next in order after passing Grand Manan and the plain, white light (American) on West Quaddy Point, is Head Harbor Light, placed on the N. E. extremity of Campo Bello, and is a guide to vessels entering the main channel, to West Isles, Moose Island, and the Inner Bay of Passamaquoddy; it enables vessels also at all times to enter Head Harbor. A *fixed white light*. Building painted *white*, with a *red cross* on it.

POINT LE PREAU LIGHT.—Upon this projecting headland, two lights are placed, one above the other, in the same house, and distant twenty-eight feet. Both lights can be seen from every point of the compass where they may be useful; both are *fixed and white*. Building painted *red and white*, in stripes, five feet broad each, horizontally.

PARTRIDGE ISLAND LIGHT.—At the entrance of the river and harbor of St. John, N. B. A *fixed, white light*. The building painted *red* and *white* in vertical stripes.

QUACO LIGHT.—A *revolving, white light*, placed on a small rock, off Quaco Head, showing twice full, and twice dark in a minute. The light can be seen from any quarter where a vessel can approach. Building painted *white* and *red*, in horizontal stripes.

CAPE ENRAGE LIGHT.—On a point of that name in Westmoreland, nearly opposite Apple River Harbor, N. S. Building painted *white*, and about 120 feet above the tide mark. A *plain, white light*.

WEST QUADDY LIGHT.—This is an American light, placed on the west side of the entrance in the St. Croix, by Lubec and Eastport.

A LIGHT HOUSE has been erected upon CAPE RACE, Newfoundland, a *fixed white light*, from sunset to sunrise. The light is visible to seaward from N. E. by E. round by the S. E. and S. to W., and is elevated 180 feet above mean water level of the sea, and may be seen in clear weather 17 miles from a ship's deck. The tower is striped red and white vertically. It stands close to the old beacon, which has been cut down. The Lighthouse is in Lat. 46 degrees 39 minutes 19 seconds N., Long. 53 degrees 2 minutes 28 seconds W. Bearings magnetic. Var. 24 degrees W.

In the River and Gulf of St. Lawrence and Strait of Belle Isle:

BELL-ISLE LIGHT.—An island at the eastern entrance of the Strait of Belle-Isle, separating Labrador from Newfoundland, situated at the extreme south west point of the island. A *single fixed white light*. Building—a circular stone tower, faced externally with fire brick of a light colour. Lat. 51° 53' 00"; Long. W. 55° 26' 00". Whole horizon lighted, and seen in fair weather 28½ nautical or 32½ statute miles.

POINTE AMOUR LIGHT, Labrador Coast, Strait of Belle-Isle, at the south east point of Forteau Bay, Lat N. 57° 27' 30"; Long. W. 56° 53' 40". A *single fixed white light*—two thirds of the horizon illuminated, and seen in fair weather 18½ nautical or 21½ statute miles. Building—a circular stone tower, faced externally with fire brick of a light colour.

ANTICOSTI LIGHT at the extreme west end of the island of Anticosti Lat. N. 49° 52' 30"; Long. W. 64° 35' 00". A *single fixed white light*—two-thirds of the horizon illuminated, and seen in fair weather 15 nautical or 18 statute miles. Building—a circular stone tower, faced externally with fire brick of a light color.

CAPE ROZIER LIGHT—East coast of Gaspé, at the extreme point of the Cape. Lat. N. 48° 51' 00"; Long. W. 64° 35' 00". A *single fixed white light*—two-thirds of the horizon illuminated, and seen in fair weather 16¾ nautical or 19½ statute miles. Building—a circular stone tower, faced externally with fire brick of a light color.

Signals will be given at or near each of the above four light houses by means of an air or fog whistle, sounded at short intervals during foggy weather and snow storms, or by a nine-pounder gun, fired every hour, in case of the whistle being out of order.

EXPLANATION OF SIGNALS

Made on the Ship Staff at Citadel Hill, when vessels are seen from the Citadel, or reported from an Outpost.

One ball close up,	1 sq. rigged.	A pendant under a ball 6 sq. rigged.
One ball half hoisted,	2 do.	do. over a ball, 7 do.
Two balls close,	3 do.	do. under 2 balls close, 8 do.
Two balls separated,	4 do.	do. between 2 balls, 9 do.
A pendant of any col.	5 do.	A flag of any color, 10 or more do.

The above Balls, &c., are hoisted at the east or west yard-arm, according to the *quarter* the vessel first appears in.

When vessels are reported from an Outpost, the following signals are shown under the yard-arm as repeats :

For a square rigged vessel, two balls of a size, one at the outer, the other at the inner halliard, close up.

A Ship or Barque, a large ball at the end of the yard, with a small one at the inner halliard.

A Brig, a small ball at the end of the yard, and a large one at the inner halliard.

A Brigantine, a cross close up at the outer halliard.

Two or more do., a cross half hoisted.

A Topsail Schooner, a cross close up at the inner halliard.

An upper yard having been added to the Ship Staff, it will be used exclusively to designate Steam Vessels, thus :

One ball East, or West indicates a Steam Vessel repeated in that quarter.

A small ball out and a large one in, a Branch Packet or Merchant Vessel.

A large ball out and a small one in, a Man-of-war Steamer, or Royal Mail Steamer.

Numbers will be indicated as directed from the lower yard.

The lower yard is now used for sailing vessels only.

When the description of vessel in sight is ascertained from the Citadel, the following descriptive colours will be hoisted at the mast head :

A Union Jack, Flag Ship.

Do, with a red Pendant over it, a two decker.

Do with a blue Pendant over it a Frigate.

Do. with a blue and white Pendant over it, a Ship or Barque rigged Sloop-of-War.

Do. with a white Pendant over it, a Brig rigged Sloop-of-War.

Do. with a red and white Pendant over it, a Schooner or Cutter-of-War.

A white Pendant with two blue crosses, a Transport, or a vessel with troops on board—if a Man-of-War, the Union under.

A white Pendant, with a blue ball, a Steamer—if a Man-of-War, the Union under.

A red Flag pierced white, Royal Mail Steam Packet from England.

A blue and red Flag crossed white, ditto. from Boston.

A white and blue Pendant, do. from Newfoundland.

A white and red Pendant, do. from Bermuda.

A blue Pendant a ship.

A blue and white Pendant, a Barque.

A red Pendant, a Brig.

- A red and white Pendant, a Brigantine.
 A white Pendant, a Sloop or Schooner.
 A blue and white Flag, horizontally divided a Foreign or Neutral fleet.
 A white and blue Pendant vertically divided, a Foreign or Neutral Man-of-War.
 A Foreign or Neutral Merchantman, National Flag with descriptive Pendant.
 When an English Packet arrives between Evening and Morning gun fire, a red triangular flag will be kept flying at the mast head from 7 till 8 o'clock.

HACKNEY GARRIAGES.

[*Extract from an Ordinance of the City, passed July 7th, 1851.*]

12. Any person or persons having a license in full force, who shall stand his carriage in any other than its appointed place or manner,—or not having it properly numbered,—or any driver or person in charge of a licensed carriage, who shall not produce the table of fares and distances when thereby required, or who, being upon his stand disengaged, shall refuse to convey any person seeking to employ him,—or who shall in any way violate this Ordinance, shall, for each offence, besides being liable to have his license revoked, forfeit and pay such a fine as under and by virtue of this Ordinance may be adjusted against him. And the owner or driver of any such carriage who shall demand or extort from any person or persons a sum beyond the rate of fare herein established, or hereafter to be established, may be so fined, and shall forthwith forfeit the license for such carriage, and be liable to refund to the party grieved the sum so extorted, with cost of prosecution. Livery stable keepers, not occupying the stands of said City are exempt from this Ordinance; further than that they are hereby required to obtain a license for each carriage they shall use to convey persons for hire, within the limits of the city; which license shall continue in force and be renewed as aforesaid, and the carriage shall be numbered, and have the letter L, besides its number, painted or placed on it as aforesaid.

TABLE OF CAB FARES FOR EACH PERSON.

For any distance up to half a mile.....	6d.

TRUCKMEN'S REGULATIONS.

Extract from an Ordinance of the City Council, passed July 7th, 1851.

8. If any Licensed Truckman, being on his Stand, shall refuse or neglect to cart, truck, or employ his horse and cart, truck, or sled, within the said City of Halifax, for any person, when requested, he shall, for each offence, forfeit and pay the sum of ten shillings.

21. The following shall be the Table of Rates and Prices of Truckage payable, or to be demanded by the Truckmen of the City of Halifax, for their services; subject, however, to be altered from time to time by resolution of the City Council:

STAGE COACHES.

Some alteration has been made in these modes of conveyance during the year. The Western Line, in the hands of Messrs. King & Brothers, leaves Windsor every morning, on the arrival of the train, for Kentville, and for Annapolis every Tuesday, Thursday, and Saturday morning.

The same proprietors conduct "the Western Shore" line: leaving Halifax at 6 o'clock, A. M., on Mondays, Wednesdays, and Fridays, for Chester, Lunenburg, Liverpool, Shelburne, and Yarmouth. Returning, leaves Yarmouth on the same days at 11 o'clock, A. M., and arrives at Halifax on Tuesday, Thursday, and Saturday evenings.

On the Eastern Route there is a daily line to Pictou, and also to Amherst, each line leaving Truro on the arrival of the Morning Trains. The Pictou line in Summer connects with the Steamer Westmoreland for Charlotte Town, P. E. I., on Monday and Thursday evenings. The Amherst line forms a daily mail route to St. John, N. B.

Expresses, to all parts of the Provinces, start from Fuller's, and from McLean & Campbell's, by every train.

BEST THINGS.

CHRISTIAN COMMUNION.—Oh, what cheerfulness, strength, and pleasure did the primitive Christians reap from the unity of their hearts in the way and worship of God. Next to the delight of immediate communion with God himself, there is none like that which arises from the harmonious exercise of the grace of the saints in their mutual duties and communion one with another. How are the spirits delighted and refreshed by it. What a lively emblem is there of heaven. The courts of princes afford no such delights.—*Flavel.*

A TEST.—How can I tell whether I am a real Christian? He who can truly say that he seeks the favor of God above every earthly good; that he delights in his service more than in any thing else; that to obey him here, and so enjoy his presence hereafter, is the prevailing desire of his heart; that his chief sorrow is, that he loves him no more, and serves him no better—such a person needs no further evidence that his heart is changed, and his sins forgiven.

A VERY COMMON MISTAKE.—Many Christians imagine that now since they have believed, they must draw their comfort from some different source, or in a different way, from what they did at first; they turn their whole attention to themselves, their experience and their graces. Forgetting that the true way of nourishing these is by keeping their eye upon the cross, they turn it inward, and try to nourish them by some process of their own devising.—*H. Bonar.*

A SUMMARY OF RELIGION.—There is no salvation but by the free mercy of God; no mercy but through the mediation of Christ; no interest in Christ except by faith in him; no justifying faith but that which works by love and purifies the heart; no love to Christ which does not include love to his people, his example, his precepts; no genuine love to his people which does not influence a man to do good to them as he has ability and opportunity.

AYER'S SARSAPARILLA.

A COMPOUND remedy, in which we have labored to produce the most effectual alterative that can be made. It is a concentrated extract of Para Sarsaparilla, so combined with other substances of still greater alterative power as to afford an effective antidote for the diseases Sarsaparilla is reputed to cure. It is believed that such a remedy is wanted by those who suffer from Strumous complaints, and that one which will accomplish their cure must prove of immense service to this class of our afflicted fellow-citizens. How completely this compound will do it has been proved by experiment on many of the worst cases to be found of the following complaints:

SCROFULA AND SCROFULOUS COMPLAINTS, ERUPTIONS AND ERUPTIVE DISEASES, ULCERS, PIMPLES, BLOTCHES, TUMORS, SALT RHEUM, SCALD HEAD, SYPHILIS AND SYPHILITIC AFFECTIONS, MERCURIAL DISEASE, DROPSY, NEURALGIA OR TIC-DOULOUREUX, DEBILITY, DYSPESIA AND INDIGESTION, ERYSIPELAS, ROSE OR ST. ANTHONY'S FIRE, and indeed the whole class of complaints arising from IMPURITY OF THE BLOOD.

This compound will be found a great promoter of health, when taken in the spring, to expel the foul humors which fester in the blood at that season of the year. By the timely expulsion of them many rankling disorders are nipped in the bud. Multitudes can, by the aid of this remedy, spare themselves from the endurance of foul eruptions and ulcerous sores, through which the system will strive to rid itself of corruptions, if not assisted to do this through the natural channels of the body by an alterative medicine. Cleanse out the vitiated blood whenever you find its impurities bursting through the skin in pimples, eruptions, or sores; cleanse it when you find it is obstructed and sluggish in the veins; cleanse it whenever it is foul, and your feelings will tell you when. Even where no particular disorder is felt, people enjoy better health, and live longer, for cleansing the blood. Keep the blood healthy, and all is well; but with this pabulum of life disordered, there can be no lasting health. Sooner or later something must go wrong, and the great machinery of life is disordered or overthrown.

Sarsaparilla has, and deserves much, the reputation, of accomplishing these ends. But the world has been egregiously deceived by preparations of it, partly because the drug alone has not all the virtue that is claimed for it, but more because many preparations, pretending to be concentrated extracts of it, contain but little of the virtue of Sarsaparilla, or any thing else.

During late years the public have been misled by large bottles, pretending to give a quart of Extract of Sarsaparilla for one dollar. Most of these have been frauds upon the sick, for they not only contain little, if any, Sarsaparilla, but often no curative properties whatever. Hence, bitter and painful disappointment has followed the use of the various extracts of Sarsaparilla which flood the market until the name itself is justly despised, and has become synonymous with imposition and cheat. Still we call this compound Sarsaparilla, and intend to supply such a remedy as shall rescue the name from the load of obloquy which rests upon it. And we think we have ground for believing it has virtues which are irresistible by the ordinary run of the diseases it is intended to cure. In order to secure their complete eradication from the system, the remedy should be judiciously taken according to directions on the bottle.

PREPARED BY

DR. J. C. AYER & CO.,
LOWELL, MASS.

PRICE, \$1 PER BOTTLE; SIX BOTTLES FOR \$5.

 Sold by all Druggists and Dealers in Medicines every where.

AYER'S CATHARTIC PILLS, FOR ALL THE PURPOSES OF A FAMILY PHYSIC.

ARE so composed that disease within the range of their action can rarely withstand or evade them. Their penetrating properties search, and cleanse, and invigorate every portion of the human organism, correcting its diseased action, and restoring its healthy vitalities. As a consequence of those properties, the invalid who is bowed down with pain or physical debility is astonished to find his health or energy restored by a remedy at once so simple and inviting.

Not only do they cure the every-day complaints of every body, but also many formidable and dangerous diseases. The Agent below named is pleased to furnish gratis my American Almanac, containing certificates of their cures and directions for their use in the following complaints: *Costiveness, Heartburn, Headache arising from disordered Stomach, Nausea, Indigestion, Pain in and Morbid Inaction of the Bowels, Flatulency, Loss of Appetite, Jaundice*, and other kindred complaints, arising from a low state of the body or obstruction of its functions.

HEADACHE, SICK HEADACHE, FOUL STOMACH.

PITTSBURG, PA., May 1, 1856.

DR. J. C. AYER. Sir:—I have been repeatedly cured of the worst headache any body can have, by a dose or two of your Pills. It seems to arise from a foul stomach, which they cleanse at once. If they will cure others as they do me, the fact is worth knowing.

Yours with great respect,

ED. W. PIERCE, Clerk of Steamer Clarion.

INDIGESTION AND IMPURITY OF THE BLOOD.

From Rev. J. V. Himes, Pastor of Advent Church, Boston.

DR. AYER:—I have used your Pills with extraordinary success in my family and among those I am called to visit in distress. To regulate the organs of digestion and purify the blood they are the very best remedy I have ever known, and I can recommend them to my friends.

Yours,

J. V. HIMES.

FOR DROPSY, PLETHORA, or kindred Complaints, requiring an active purge they are an excellent remedy.

FOR COSTIVENESS OR CONSTIPATION, and as a DINNER PILL, they are agreeable and effectual.

FITS, SUPPRESSION, PARALYSIS, INFLAMMATION, and even DEAFNESS and PARTIAL BLINDNESS have been cured by the alterative action of these Pills.

Most of the pills in market contain mercury, which, although a valuable remedy in skilful hands, is dangerous in a public pill, from the dreadful consequences that frequently follow its incautious use. These contain no mercury or mineral substance whatever.

AYER'S CHERRY PECTORAL,

FOR THE RAPID CURE OF

COUGHS, COLDS, INFLUENZA, HOARSENESS, CROUP, BRONCHITIS, INCIPIENT CONSUMPTION, AND FOR THE RELIEF OF CONSUMPTIVE PATIENTS IN ADVANCED STAGES OF THE DISEASE.

So wide is the field of its usefulness, and so numerous are the cases of its cures, that almost every section of country abounds in persons, publicly known, who have been restored from alarming and even desperate diseases of the lungs by its use. When once tried, its superiority over every other medicine of its kind is too apparent to escape observation, and where its virtues are known, the public no longer hesitate what antidote to employ for the distressing and dangerous affections of the pulmonary organs that are incident to our climate. While many inferior remedies thrust upon the community have failed and been discarded, this has gained friends by every trial, conferred benefits on the afflicted, they can never forget, and produced cures too numerous and too remarkable to be forgotten.

Prepared by

DR. J. C. AYER & CO.,
LOWELL, MASS.

And sold by all Druggists & Dealers in Medicine everywhere.

BOUDOIR SEWING MACHINE.

HARRIS' PATENT.

The Proprietors of the above Machine, thankful for the many flattering testimonials received from their patrons the past year, and for the courtesy of those who have allowed us the privilege of referring to them, respectfully invite all in search of a

MACHINE FOR FAMILY USE

to call at their Sales-rooms, and make a rigid examination of our DOUBLE THREAD MACHINE, making the justly celebrated GROVER & BAKER STITCH, that will not slip *though every fourth stitch be cut*. It is the BEST and ONLY machine making the above stitch, by authority of the Grover & Baker S. M. Co., at the low price of

FORTY DOLLARS.

The above machine is, with this improvement, the best low priced one now before the public, and all persons desirous of purchasing are requested to give it a careful examination before purchasing elsewhere. It is truly a Family Machine, and will perform more work in one hour than the best seamstress in one day, and do it better.

Every Machine is Warranted and the Warrantee Fulfilled.

Responsible agents wanted in all parts of the country, and liberal terms given. Send for a circular.

Principal office 43 TREMONT STREET, BOSTON, where all applications for agencies must be made.

L. A. BIGELOW, AGENT.

TO THE CUSTOMERS OF THE LONDON HOUSE,

HALIFAX, N. S.

THE OLD ESTABLISHED
WHOLESALE & RETAIL DRY GOODS WAREHOUSE.
E. BILLING JUNR. & CO., PROPRIETORS.

SINCE we last addressed our Friends and Customers through this medium a change has taken place in the proprietary of our business; Mr. R. McMurray having ceased to be a partner in our firm, and being now unconnected therewith in any way. Under this new arrangement we can assure our friends their wants will be more promptly and carefully attended to, and with far more satisfaction in every respect.

Our customers will have learnt we are sure with much regret of the loss of our well known Warehouse by the serious fire of 9th September. We are glad to inform them that we are reinstated in much more spacious and elegant premises,

NO. 31, GRANVILLE STREET,

where our increased accommodation and facilities will enable us to display for their inspection a much larger and more complete assortment of

STAPLE & FANCY DRY GOODS,

in every manufacture of WOOLLEN, SILK, COTTON AND LINEN.

It is impracticable in this confined space to give other than an imperfect outline of the VARIETY AND EXTENT of our Stock. We can but name our DEPARTMENTS for the guidance of our friends, assuring them that in each they will find a most extensive variety of LOW PRICED and COSTLY GOODS in every degree of excellence.

**LADIES' DRESSES,
SHAWLS AND MANTLES,
BONNETS AND MILLINERY.**

(In connection with these departments we have work rooms under the direction of a talented and experienced Milliner and Dress Maker. BONNETS, HEAD DRESSES, CAPS, MANTLES and DRESSES will be made to order from selected materials, at a very small charge. The Plates of London, Paris, and New York FASHIONS are received by each Steamer.)

**SILKS,
HOSIERY, GLOVES AND TRIMMINGS, FURS.**

**WOOLLEN CLOTHS,
DOESKINS, VESTINGS, BROAD CLOTHS,
GENTS' FURNISHING GOODS,
READY MADE CLOTHING.**

**LINEN DRAPERY.
CALICOES, SHIRTINGS, HOUSEHOLD LINENS,
FURNISHING DAMASKS, &C.**

Orders from the country accompanied with a Post Office Order or remittance will receive the most careful attention, and the goods will be forwarded to any part of the province *Carriage free*. Any article not approved of may be returned and exchanged, or the money paid will be immediately refunded, at the option of the customer.

MOUNT ALLISON WESLEYAN ACADEMY, SACKVILLE, NEW BRUNSWICK.

OFFICERS OF INSTRUCTION AND GOVERNMENT:

PRINCIPAL, REV. HUMPHREY PICKARD, D.D.

PROFESSOR OF INTELLECTUAL AND MORAL PHILOSOPHY, ETC., REV. H. PICKARD, D.D.
PROFESSOR OF MATHEMATICS, PHYSICAL SCIENCE, ETC., THOMAS PICKARD, A.M.
PROFESSOR OF FRENCH, AND ASSISTANT IN LATIN AND GREEK, ALEXANDER
SIMPSON REID.

TEACHER IN INTERMEDIATE DEPARTMENT, ARTHUR MCN. PATTERSON.
TEACHER IN PRIMARY DEPARTMENT, JAMES R. INCHE.

THIS Institution offers superior advantages to those who wish to pursue either a partial or a complete course of Academic study. It is situated in a quiet country village, easy of access, pleasant and remarkably healthy; the Academic buildings, occupying beautiful positions, are spacious, and, for the purposes for which they are designed, altogether unequalled in these Provinces; the various apartments are commodious, well ventilated, and suitably furnished; all the plans, regulations and arrangements, scholastic and domestic, are those which have been found best adapted to promote the comfort and facilitate the improvement of the Students. Five Teachers, fully competent in their respective departments, are constantly employed during Term time in the work of instruction. The charges for Board and Tuition in the Primary Department are only £27 10s., New Brunswick Currency, per year; and for instruction in higher Departments, proportionally low.

TERMS OF FOURTEEN WEEKS EACH, ARE TO BEGIN AS FOLLOWS:

THURSDAY, NOVEMBER 8th, 1859.

THURSDAY, FEBRUARY 9th, 1860.

THURSDAY, JULY 26th, 1860.

THURSDAY, NOVEMBER 1st, 1860.

☞ For further information apply to the Principal. ☞

SACKVILLE, N. B., OCTOBER, 1859.

☞ A good full length Photograph Likeness of the late CHARLES F. ALLISON, Esq.—the Founder of the Mount Allison Wesleyan Academy—may be obtained for Five Shillings, upon early application either to Rev. CHARLES CHURCHILL, A. M., at the Wesleyan Conference Office, Halifax, or to Rev. H. PICKARD, Mount Allison Academy, Sackville, N. B.

THOMAS WESLEY & CO.

THE BOSTON REMEDY. REDDING'S RUSSIA SALVE, VEGETABLE OINTMENT:

IS perfectly free from any mercurial matter or injurious particles, and in no case will its application interfere with the remedies that may be prescribed by a regular physician. The Medical Faculty, throughout the Union, are unanimous in its praise. It has been used in the New-England States during the past thirty years, and the more its virtues are known the greater is its demand. It may truly be considered an indispensable article of household necessity,—being used alike by rich and poor. The length of time it has been before the public is conclusive proof that it is no “catch-penny” preparation, put forth to have a fictitious popularity, and then sink to rise to more.

REDDING'S RUSSIA SALVE is one of the best and surest remedies for all those numerous bodily afflictions, as—

BURNS, SCALDS, FELONS, FLESH WOUNDS, OLD SORES, PILES, CHAPPED HANDS, CHILBLAINS, ERYSIPELAS, SORE NIPPLES, FROST-BITTEN PARTS, SPRAINS, CORNS, WENS, CANCERS, ULCERS, WARTS, STIES, WHITLOWS, FESTERS, BUNIONS, RINGWORM, SORE LIPS, SORE EYES, NETTLE RASH, SALTRHEUM, MOSQUITO BITES, SPIDER STINGS, FLEA BITES, SHINGLES, CUTS, BOILS, INGROWING NAILS, ERUPTIONS, PIMPLES, FRECKLES, TAN, SUN-BURN BLISTERS, AND ALL CUTANEOUS DISEASES AND ERUPTIONS GENERALLY.

REDDING'S RUSSIA SALVE is prompt in action, removes pain at once, and reduces the most angry-looking swellings and inflammations, as if by magic,—thus affording immediate relief and a complete cure. Many persons have received great benefit from its use during the Summer, as it will remove *Freckles* and *Sunburn*, and produce that soft appearance of the skin so much desired.

This Salve is put up in metal boxes, three sizes, at 25 cents, 50 cents, and \$1,—the largest size contains the quantity of *six* of the smallest boxes,—and is warranted to retain its virtues in any climate. Every wrapper has a picture of a wounded soldier, with an army surgeon stooping over him,—his horse standing by; and the signature of “*Redding & Co.*” immediately above.

# TEETH.

## VANBUSKIRK & COGSWELL, DENTISTS,

171 HOLLIS STREET,

Stone Building nearly opposite Nash's Variety Store.

**D**R. VANBUSKIRK having now associated with him as a partner, Mr. A. C. COGSWELL, who has had several years practice in his profession in Boston, and is thoroughly conversant with all the new modes of manufacturing

### ARTIFICIAL TEETH,

set on a base of Gold, Platina, Silver, or Vulcanized India Rubber, (as may be required), either in blocks, single gum teeth, plain teeth, or the Atlode process, or continued gums, which is the most natural, and difficult of detection. But they would particularly call attention to the mode of setting teeth on a base of Vulcanized Rubber,

### A NEW DISCOVERY,

the advantages of which are, a greater amount of suction, lightness, ease and comfort in wearing, arising from the utter absence of metal, while from the flexibility of the agent employed, unequal pressure upon the gums is avoided; it is permanent, wholesome, and more congenial to the mouth than metal, and free from any taste or smell, a truly wonderful process, calculated, we believe, to supersede metal altogether in whole sets of teeth.

### PIVOT TEETH,

Set on stumps with compressed wooden pivots, or hollow gold pivots, and tube, with a spring; they can be removed at pleasure.

### TEETH PLUGGED,

With gold or white cement, as circumstances may require—the most difficult part of the profession, which few Dentists are capable of properly performing.

### TEETH EXTRACTED,

With forceps of the latest and best description, adapted to the form of each tooth, which, in experienced hands, gives far less pain, and less danger of breaking a tooth, than with the old fashioned turnkey in general use.

**DENTISTRY** has now become a science requiring no ordinary abilities; it requires mechanical ingenuity, experience and tact, that few possess. Dentists, and not unusual for entire strangers to set up as experienced and yet it is make a great show, who have had little or no instruction whatever in this profession.

LAWSON'S NERVOUS CURATIVE AND NERVE TONIC. \* \* \* \*  
 —Mr. Lawson, the proprietor, has for many years been a resident among us, and is known as one of our most prominent business men. His references to the value of his Nervous Curative are also persons well known to us as citizens of standing and integrity, in whose statements implicit confidence may be placed, and their testimony may be taken as conclusive evidence of the estimation in which Mr. Lawson's remedy is held at home. Here it has already attained that position that requires no recommendation. Having stood the test of trial here, we can with safety, and do, recommend with entire confidence its use elsewhere by all who may be in any manner afflicted with any form of nervous disease, as the most efficacious remedy of which we have any knowledge.—*Lowell Daily Journal and Courier*, June 17, 1859.

ROYAL MAIL STEAMSHIP "ARABIA,"  
 East Boston, Aug. 22, 1859. }

PETER LAWSON, Esq.—Dear Sir: The bottle of your "Nervous Curative" which you so kindly sent me, has fairly put me on my feet again, for which I beg to return you my best thanks.

I had for some days been suffering greatly from Rheumatism in my left leg, particularly the knee, so much so that I could not move without assistance, and when changing my position had to have the leg lifted or set down. I had also been unable to get any sleep for several nights, when on Tuesday last you gave me the bottle of your Nervous Curative; and although the limb was so sore that I could not bear any pressure, still, after the first application, I slept soundly, and the next morning could bear to have it (my leg) well rubbed.

I have continued to improve since, and am happy to say, now able to resume my duties.

I am determined never to be without a bottle of your "Nervous Curative" with me, and I shall take care to keep my family in England supplied with it also, that they may enjoy its benefits as well as myself.

GEO. A. LEWIS, Second Officer Steamship "Arabia."

speedy cure, in that great and universally approved Remedy,

## WISTAR'S BALSAM OF WILD CHERRY.

*Fresh and reliable Testimony.*

"WISTAR'S BALSAM OF WILD CHERRY.—We call the attention of our readers to the  
advertisement of Wistar's Balsam of Wild Cherry, and assure them that they can  
find no better remedy for Coughs, Colds, Asthma, Bronchial Affections, or any dis-  
ease of the throat or lungs.

"In August, 1858, an estimable friend of ours returned from the country much  
emaciated, and laboring under a severe cough, which had made such rapid inroads  
upon her constitution, that we felt something must be done at once, or she would  
become a victim of consumption. Having known the beneficial results which  
have occurred from the use of Wistar's Balsam, we made purchase of some for  
her, and we are happy to say that before she had taken the contents of one bottle  
her cough had entirely left her, and she is now in the enjoyment of excellent  
health."—*Olive Branch, June 25th, 1859.*

All who suffer from any disease of the Throat, Lungs, or Chest, can obtain like  
relief by using **A CURE FOR WHOOPING COUGH & CROUP.**

ST. HYACINTH, CANADA EAST, Aug. 21, 1859.

MESSES. SETH W. FOWLE & Co. Gentlemen:—Several months since a little  
daughter of mine, ten years of age, was taken with Whooping Cough in a very ag-  
gravated form, and nothing we could do for her seemed in any way to relieve her  
suffering. We at length decided to try a bottle of your Dr. Wistar's Balsam of  
Wild Cherry. In three hours after she had commenced using it she was greatly  
relieved, and in less than three days was entirely cured, and is now well. I have  
since recommended the Balsam to many of my neighbors, who have used it, and  
in no case have I known it to fail of effecting a speedy cure.

You are at liberty to make any use of the above you think proper. If it shall  
induce any body to use your Balsam I shall be glad, for I have great confidence in  
it.

Yours,

P. GUITTE.

*Proprietor Courier de St. Hyacinthe.*

CONSUMPTION CAN BE CURED.—Sir James Clarke, Physician to Queen Victoria, and  
one of the most learned and skillful men of the age, in his Treatise on Consump-  
tion, says:—"That Pulmonary Consumption admits of a cure, is no longer a mat-  
ter of doubt; it has been clearly demonstrated by the researches of Laennec and  
other modern Pathologists."

The mere fact that such a disease is ever curable, attested by such unimpeach-  
able authority, should inspire hope, and reanimate fallen courage in the heart of  
every sufferer from this disease. The remedy which we offer has cured thousands.  
Wistar's Balsam of Wild Cherry not only emanates from a regular physician, but  
has been well tested in all the complaints for which it is recommended.

**Beware of Counterfeits!**—The only Genuine is prepared by S. W.  
FOWLE & Co., Boston, whose printed name, as well as the written signature of I.  
Butts, on the outside wrapper. Sold by Druggists and Dealers in Medicines gen-  
erally. Agents—Morton & Cogswell, G. E. Morton, Brown Brothers & Co., Halifax.

Mount Allison,

## MOUNT ALLISON LADIES' ACADEMY, SACKVILLE, NEW BRUNSWICK.

Rev. JOHN ALLISON, A. B., PRINCIPAL.

Mrs. M. LOUISA ALLISON, A. B., PRECEPTRESS.

IN this popular and numerous attended Academy there are three Departments :

### FIRST.

#### THE LITERARY, SCIENTIFIC MATHEMATICAL, AND CLASSICAL.

In this department three efficient Teachers are associated with the Principal and Preceptress, who are constantly engaged with their pupils. The latest and best Text Books on the Sciences are furnished in the School, and the most approved methods adopted in teaching the Ancient and Modern Languages. The constant aim of the teachers is to make thorough and independent students.

### SECOND.

#### THE DEPARTMENT OF FINE ARTS.

Under the direction of two Ladies, whose whole attention is directed to the pupils in the various branches of Drawing, Painting, &c. This Department is thoroughly provided with materials imported direct from London, and a large number of the best copies have been procured at great expense.

### THIRD.

#### MUSICAL.

Two Superior Teachers have been selected to conduct this Department, viz : Professor AGTHE, who received his Musical Education in Berlin, and Miss MAUD A. CRONYN, from St. Mary's Hall, New Jersey. These teachers combine with brilliant execution on the Piano and Organ, superior vocal powers. The department is thoroughly organized, with regular hours for practice on Chickering's, and Brown & Allen's best School Pianos.

The greatest possible attention given to the health and morals of the pupils.

Expenses from £30 to £50, per annum, according to the studies pursued, and materials obtained.

Mount Allison, Sackville, N. B., Oct. 24th, 1859.

## LANGLEY'S VEGETABLE BITTERS.

**F**OR purifying the Blood, removing disorders of the Skin, STOMACH, and BOWELS, Biliousness, Liver Complaint, Debility, Headache, Nervousness, Lowness of Spirits, Palpitation of the Heart, Loss of Appetite, DYSPEPSIA, Burning Sensations in the Pit of the Stomach, Oppression after Eating, &c.

The Stomach is the grand storehouse of supplies for the whole human system. From it the food, carefully digested, goes to form Blood, and this, by means of the minutely ramifying blood-vessels, is carried to the bones, the muscles, the nerves, and the flesh, supplying each with material peculiarly fitted to build up the waste continually caused by action—physical or mental.

What the fountain is to the stream proceeding from it, that is the stomach to the body. If the fountain be muddy the whole stream will be polluted; if the stomach be out of order, the blood will be vitiated, and the whole system will partake of the evil results. How needful, then, to preserve this organ, thus intimately connected with every other, in good working order.

But in a state of Society like the present, this is almost impossible. "Fretting and Stuffing," as Abernethy has said, have been the chief hindrances to this desirable state of things. Hence the frequency of the complaint, "My stomach is not just right." Mourners go about the streets, standing at the corners thereof, and their cry is, "My stomach! Oh! My stomach!"

Where there is distress of this kind it is natural to seek for a cure, and the demand thus created has produced a supply of Medical agents intended to alleviate these distressing symptoms, and to effect permanent cures. Among these agents the Bitters above named have taken their place. These have been in use for several years, recommending themselves by being in reality what they purport to be—a medicine removing all morbid secretions, purifying the blood, and giving tone to the digestive organs, while it is at the same time grateful to the most delicate stomach, and remarkable for its strengthening & invigorating properties.

## MRS. WINSLOW,

An experienced Nurse and Female Physician, presents to the attention of mothers, her

# SOOTHING SYRUP,

FOR CHILDREN TEETHING,

which greatly facilitates the process of teething, by softening the gums, reducing all inflammation—will allay ALL PAIN and spasmodic action, and is

**SURE TO REGULATE THE BOWELS,**

Depend upon it, mothers, it will give rest to yourselves, and

**RELIEF AND HEALTH TO YOUR INFANTS.**

We have put up and sold this article for over ten years, and CAN SAY, IN CONFIDENCE AND TRUTH of it, what we have never been able to say of any other medicine—NEVER HAS GLE INSTANCE, TO timely used. Never did dissatisfaction by any the contrary, all are de- tion, and speak in terms of its magical tues. We speak in this know," after ten years' experience, and PLEDGE OUR REPUTATION FOR THE FULFIL- MENT OF WHAT WE HERE DECLARE. In almost every instance where the infant is suffering from pain and exhaustion, relief will be found in fifteen or twenty minutes after the syrup is administered.

This valuable preparation is the prescription of one of the most EXPERIENCED and SKILFUL NURSES in New England, and has been used with never-failing success in

**THOUSANDS OF CASES.**

It not only relieves the child from pain, but invigorates the stomach and bowels corrects acidity, and gives tone and energy to the whole system. It will almost instantly relieve

**CRIPING IN THE BOWELS, AND WIND COLIC,**

and overcome convul- sions, which, if not speed- ily remedied, end in death. We believe it the BEST AND SUREST REMEDY IN THE WORLD, in all cases of DYSENTERY, and DIARRHOEA IN CHILDREN, whether it arises from teething or any other cause. We would say to every mother who has a child suffering from any of the foregoing complaints—do not let your prejudices, nor the prejudices of others, stand between your suffering child and the relief that will be SURE,—yes, ABSOLUTELY SURE—to follow the use of this medicine if timely used. Full directions for using will accompany each bottle. None genuine unless the fac-simile of CURTIS & PERKINS, New York, is on the outside wrapper.

## STARTLING, BUT TRUE. SURVIVE OR PERISH!

# Holloway's Pills

....AND....

## OINTMENT.

**T**HE history of *these great remedies* is the most wonderful medical revelation that the world has ever known. It is not a history written by one man, or even derived from the experience of one nation, but consists of a compilation of testimonials from the sick of every country—a record, the like of which has never been adduced in favor of any discovery or invention since time began.

## DYSPEPSIA & BILIOUS DISORDERS.

In whatever form disease attacks the liver or stomach, it is repelled and exterminated by this searching, painless, and irresistible curative.

Let the sick whom the faculty have abandoned, resort with confidence to this powerful antibilious agent, and a restoration to health and activity will be the unvarying result.

## SCROFULA, ERYSIPELAS, AND SALT RHEUM; BAD LEGS, OLD SORES AND ULCERS.

Cases of many years standing that have pertinaciously refused to yield to any other remedy or treatment, have invariably succumbed to a few applications of this powerful unguent.

\*\*\* Sold at the manufactory of Professor HOLLOWAY, 80 Maiden Lane, New-York, and by all respectable Druggists and Dealers in Medicine throughout the United States and the civilized world, in pots, at 25 cents, 63 cents, and \$1 each.

☞ There is a considerable saving by taking the larger sizes.

N. B.—Directions for the guidance of patients in every disorder are affixed to each pot.

89 New Devonshire Street.

### EMBOSSING PRESSES,

For stamping Envelopes, Deeds, Papers, and all legal documents. Also very desirable for business men for stamping Checks, or any other papers or wrappers—it being a good way of advertising *without any expense.*

## THE HUMAN HAIR.

How many persons abuse this delicate and beautiful ornament, by burning it with alcoholic washes and plastering it with grease, which has no affinity for the skin and is not absorbed. Burnett's Cocoaine, a compound of Cocoa-nut Oil, &c., is unrivalled as a dressing for the hair—is readily absorbed, and is peculiarly adapted to its various conditions, preventing it from falling off, and promoting its healthy growth.

### BURNETT'S COCOAINE.

A compound of Cocoa-nut Oil, &c., for dressing the Hair. For efficacy and agreeableness it is without an equal.

It prevents the hair from falling off,

It promotes its healthy and vigorous growth,

It is not greasy or sticky,

It leaves no disagreeable odor.

It softens the hair when hard and dry.

It soothes the irritated scalp skin.

It affords the richest lustre.

It remains longest in effect.

It costs 50 cents for a half pint bottle.

### BURNETT'S COCOAINE.

Boston, July 19th, 1857.

MESSRS. J. BURNETT & Co. I cannot refuse to state the salutary effect in my own aggravated case, of your excellent Hair Oil—(Cocoaine).

For many months my hair had been falling off, until I was fearful of losing it entirely. The skin upon my head became gradually more and more inflamed, so that I could not touch it without pain. This irritating condition I attributed to the use of various advertised hair washes, when I have since been told contain camphene spirit.

By the advice of my physician, to whom you had shewn your process of purifying the Oil, I commenced its use the last week in June. The first application allayed the itching and irritation; in three or four days the redness and tenderness disappeared—the hair ceased to fall, and I have now a thick growth of hair. I trust that others, similarly afflicted, will be induced to try the same remedy.

Yours, very truly,

SUSAN R. POPE.

### BURNETT'S COCOAINE.

#### Premature loss of the Hair.

Which is so common now-a-days, may be entirely prevented by the use of BURNETT'S COCOAINE. It has been used in thousands of cases where the hair was coming out in handfuls, and has never failed to arrest its decay, and to promote a healthy and vigorous growth. It is, at the same time, unrivalled as a dressing for the hair. A single application will render it soft and glossy for several days.

### BURNETT'S COCOAINE.

A single application renders the hair (no matter how stiff and dry) soft and glossy for several days. It is conceded by all who have used it to be the BEST AND CHEAPEST HAIR DRESSING in the World.
